Computer Engineer / Full-Stack Developer

PROFESSIONAL EXPERIENCE

Back-End Web Developer (External) — Qovoltis — Since September 2025

- Development and maintenance of secure REST APIs for electric vehicle charging management.
- Design and optimization of relational databases (MySQL).
- Implementation of back-end services in PHP (Laravel).
- Continuous integration and automated deployment via GitLab CI/CD.
- Collaboration with front-end and product teams to ensure technical and functional consistency.

Web Developer — Techitaway — 2024 – Present

- Integration of responsive web interfaces using HTML, CSS (SCSS), and JavaScript.
- Database management with PostgreSQL and advanced use of Laravel (models, controllers, migrations, etc.).
- Full-stack development of back-end and front-end features.
- Performance optimization and bug resolution.

Web Development Intern (Laravel) — Techitaway — July 1, 2024 – October 31, 2024

- Developed a hotel room reservation platform with an integrated management dashboard.
- Implemented user role and permission management.
- Integrated a booking calendar system and online payment functionality.
- Completed the full project lifecycle, from design to deployment.

Web Development Intern — SARL Art Promotion — March 17, 2024 – June 16, 2024

- Developed a catering management web application for a real estate promotion company.
- Implemented a MERN architecture (MongoDB, Express.js, React.js, Node.js).
- Managed and coordinated the project, including leadership on key components.
- Created dynamic and modern interfaces with React.js and back-end integration using Express.js.

Freelance Web Developer — Various Clients — 2021 – Present

- Delivered web projects for a variety of clients, from showcase websites to complex web applications.
- Started with HTML and CSS, then evolved to JavaScript and modern frameworks such as React and Laravel.
- Continuously improved technical skills according to client needs and emerging technologies.
- Provided tailor-made solutions and ensured client satisfaction through effective communication.

EDUCATION

Internship Certificate (Laravel) — Techitaway — July 1, 2024 – October 31, 2024

Master's Degree in Computer Systems — Mouloud Mammeri University, Tizi-Ouzou — 2023 – 2024

Internship Certificate for Master's Degree Completion — SARL Art Promotion — March 17, 2024 – June 16, 2024

Bachelor's Degree in Computer Systems — *Mouloud Mammeri University, Tizi-Ouzou* — **2021 – 2022**

Baccalaureate in Mathematical Techniques (Process Engineering) — *Lycée Zamoum Med, Boghni* — **2018 – 2019**

TECHNICAL SKILLS

Languages & Frameworks:

HTML5 — CSS3 (Flexbox, Grid) — SCSS & SASS — Bootstrap 5 — JavaScript — jQuery — React JS — Vue JS — Node JS — Express JS — EJS — JSON — APIs — PHP — PHP Data Objects — Laravel — Python (Flask, Tkinter, PyQt6) — MySQL — PostgreSQL — MongoDB — Tailwind CSS — Assembly Language Basics

Tools & Methodologies:

Git — GitHub — GitLab — Postman — Jira — Trello — Asana — Monday.com — Slack — Microsoft Project — Project Management — Object-Oriented Programming — Database Management — Network Administration — Software Engineering — Linux — UI/UX Design — Graphic Design — LaTeX — Scientific Writing — Mind Mapping Expertise

Networking & Systems:

Network Administration — Network Configuration & Troubleshooting — IP Addressing & Subnetting — Routing & Switching (Cisco) — Firewall & VPN Setup — Linux Server Management — Virtualization (VMware, VirtualBox)

Software & Environments:

VS Code — Microsoft Word — Microsoft Excel — Microsoft PowerPoint — EdrawMind — EdrawMax — Lucidchart — MiKTeX — Adobe XD — Adobe Illustrator — Canva — Figma — Zoom

LANGUAGES

French: Very Good

Arabic: Excellent

English: Intermediate
